

PELTOR™
Protection & Communication

WS™ ALERT™ Headset Series

**Stay focused,
productive
and safe**

3M Science. Applied to life.™

The future of solar self-charging technology is here...

With more than 75 years of experience, the 3M™ PELTOR™ Brand promises quality communication solutions that help provide an excellent balance of performance and protection.

The advanced engineering and technology inherent with the 3M™ PELTOR™ Brand fits with the high standard of quality and innovation of a continuously evolving range of product solutions that you, our customers, come to expect from 3M.

We strive to set the standard for confidence and trust by providing robust, reliable protective communication equipment. We are also committed to develop products that are more sustainable for the future.

With the 3M™ PELTOR™ WS™ ALERT™ XPV, a solar powered headset with cups partly produced with recycled plastic and electronics that supports Over The Air (OTA) firmware updates to help prolong the product lifetime, we are well on our way.

Sustainability

We strive to set the standard for confidence and trust by providing robust, reliable protective communication equipment. We are also committed to develop products that are more sustainable for the future.

Built-in rechargeable Lithium-Ion Battery, reduces waste by eliminating single use batteries.

Over The Air firmware updates help prolong the product lifetime.

Packaging is made from responsibly sourced materials and is recyclable.

Partly produced with recycled plastic.

Made in Sweden with green electricity.

Repairable, spare parts available.

Powered by Light

3M™ PELTOR™ WS™ ALERT™ XPV Headset

The solar powered hearing protection headset.

By using the surrounding light to power your headset, it reduces the need of disposable batteries. Innovative light charging material transforming indoor and outdoor light into clean, continuous energy. We have optimized the new software to get a better listening experience when you are streaming from your phone by having **Pod** and **Music** mode. The headset also features Qualcomm® aptX™ HD Adaptive audio, supporting robust and high resolution Bluetooth® wireless audio.

Large buttons and voice-guided menus

No need to remove the headset for any adjustments. Voice confirmation after setting adjustments, including “low battery” voice alert.

Push-to-Listen function

You can pause streaming quickly and turn on the environmental listening with a double press.

Ambient Listening Microphones

In low noise, ambient microphones help you hear oncoming vehicles, alerts, and other warning signals when needed and when it's loud helps provide hearing protection.

Work Audio Profiles

WAP offers a new way to adjust the auditory settings

Multifunction Button

Can be customized to be used for different pre-defined features in the 3M Connected Equipment app.

Powerfoyle™

Solar-charged headband.

Bluetooth®

Bluetooth® MultiPoint technology for connection to one or two external devices for hands-free talk and streaming. Simultaneous, seamless connection to Bluetooth® devices allows for flexibility and mobility.

Qualcomm® aptX™ HD

Qualcomm® aptX™ HD Adaptive audio supports robust, high resolution Bluetooth wireless audio.

Noise-cancelling speech microphone

Helps provide clear communication, in noisy environments.

Improve your workday.

Conduct all your business from inside your headset. You can now clearly hear incoming callers in your headset by connecting one or two devices using Bluetooth® MultiPoint technology. By using the noise-cancelling boom microphone, you can speak to others at a normal volume even in noisy environments and they can hear you without the surrounding noise interfering with your conversation.

Functions & Features

Bluetooth®

Bluetooth® MultiPoint technology for connection to one or two external devices for hands-free talk and streaming. Simultaneous, seamless connection to Bluetooth® devices allows for flexibility and mobility.

Qualcomm® aptX™ HD Adaptive audio supports robust, high resolution Bluetooth wireless audio.

Multifunction Button

Can be customized to be used for different pre-defined features in the 3M Connected Equipment app, such as Bluetooth, Mute Microphone, streaming profiles, Time, APS (Audio Pan Setting).

Noise-cancelling speech microphone

Helps provide clear communication, in noisy environments.

APS - Audio Pan Setting

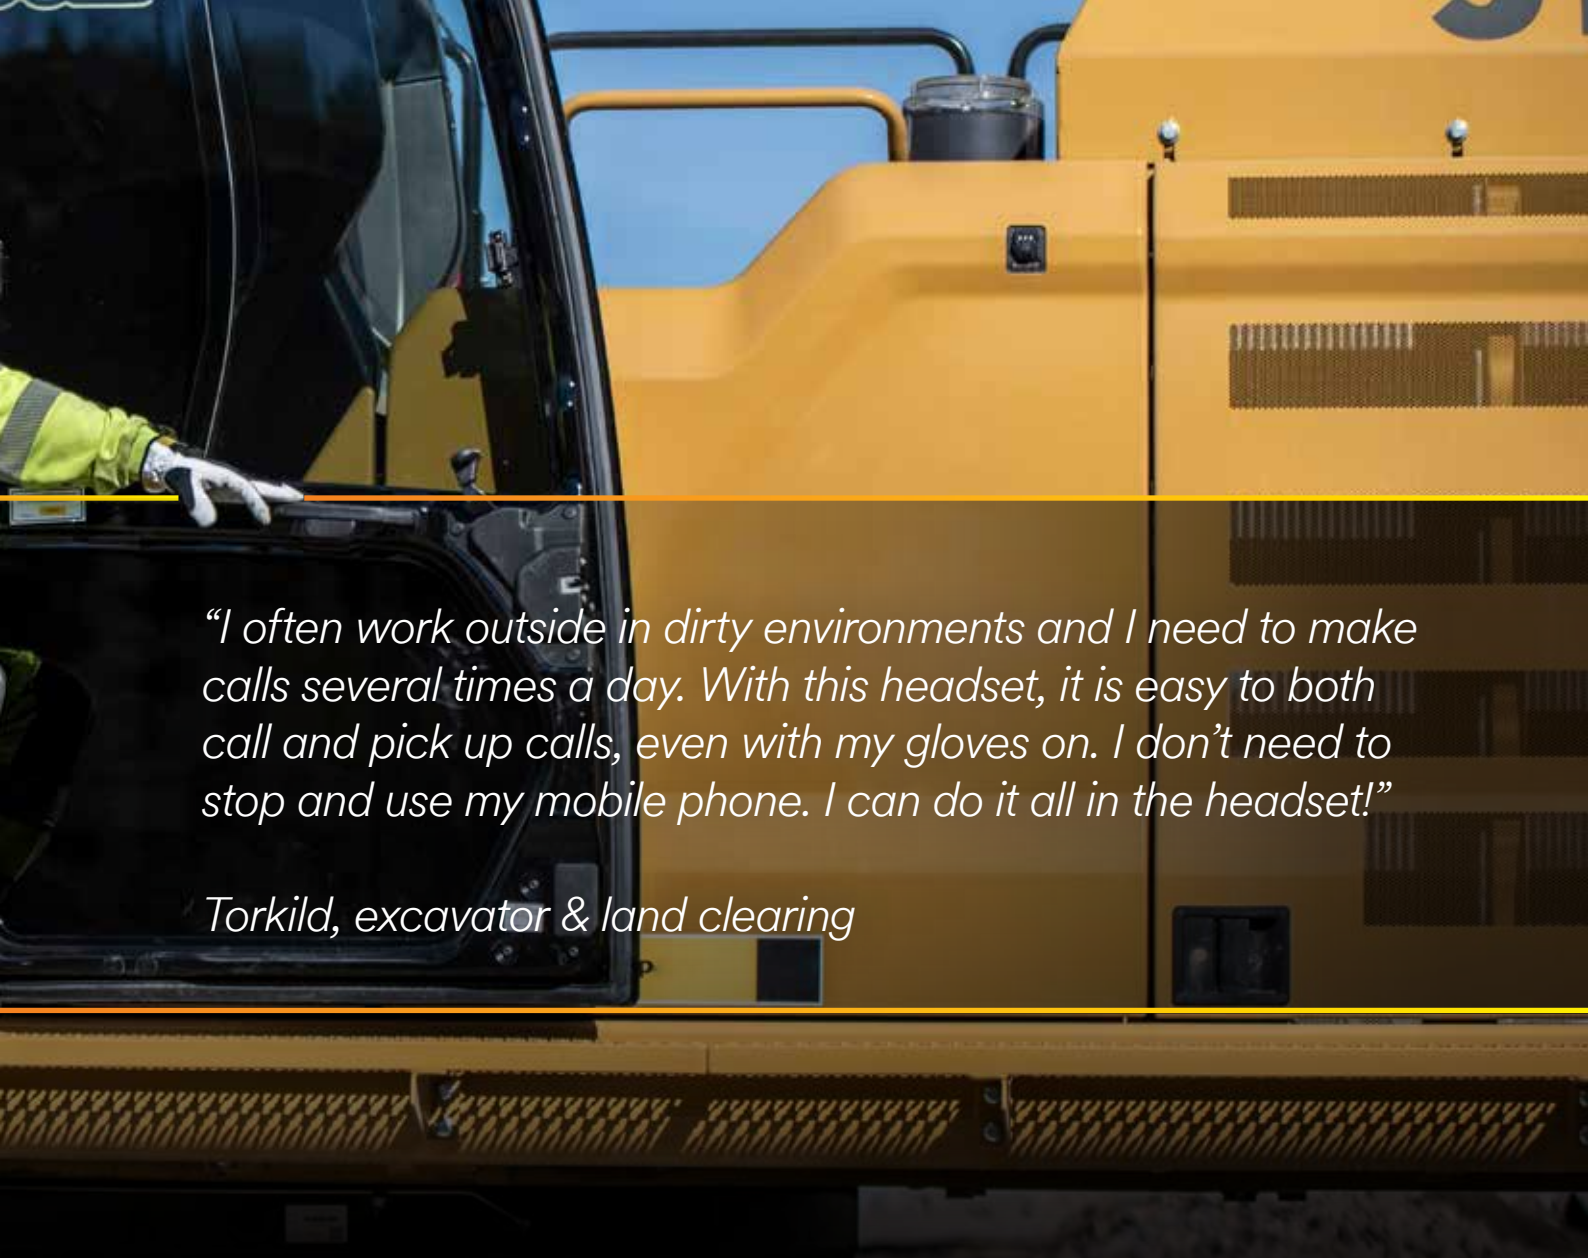

Pan your FM radio or streaming audio to one ear (left or right) which helps with better situational awareness, when using it in combination with the ambient listening function. (XPI +)

3M Connected Equipment App

Control your PELTOR™ Headset through your phone or tablet. The app gives you access to all settings in an easy-to-use interface.

Approved hearing Protection

Tested against EN 352-*: 2020 Standard.

“I often work outside in dirty environments and I need to make calls several times a day. With this headset, it is easy to both call and pick up calls, even with my gloves on. I don’t need to stop and use my mobile phone. I can do it all in the headset!”

Torkild, excavator & land clearing

USB-C built-in charging jacket

Built-in rechargeable Lithium-Ion Battery.

FM-Radio with RDS

Alternate Frequency (AF) auto-switches to a stronger signal for uninterrupted reception. Traffic Announcement (TA) broadcasts traffic reports to help motorists plan routes and avoid congestion.

Large buttons and voice-guided menus

No need to remove the headset for any adjustments. Voice confirmation after setting adjustments, including “low battery” voice alert.

Push-To-Listen function

You can pause streaming quickly and turn on the environmental listening with a double press.

Ambient Listening Microphones

In low noise, ambient microphones help you hear oncoming vehicles, alerts, and other warning signals when needed and when it’s loud helps provide hearing protection.

WAP - Work Audio Profiles

New advanced ambient listening types that allow access to a variety of gain settings, but with frequency shaping, to promote auditory performance in different work environments.

Pod and Music mode

Adapt your listening experience with two different streaming settings for pod and music.

Innovations to help improve your workday.

Protect your hearing at all times. No need to take your hearing protector off to hear warning signals, approaching vehicles or answering the phone. Stay focused and adjust to the surrounding noise by using the different ambient listening profiles.

3M™ Connected Equipment App

Control your PELTOR™ Headset through your phone or tablet. The app gives you access to all settings in an easy-to-use interface.

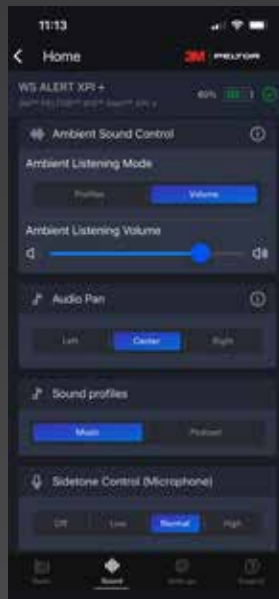

The mobile app simplifies the setup process, allows you to set your favorite radio channel, customize your audio experience, and monitor the power status of your headset. If there is a new firmware update available, you can get it via the mobile app (OTA). For the XPV, you can also monitor the charge you get from the solar cell and view a variety of different statistics.

Control Interface tabs*

* The app screens and functions adapts to the connected headset model.

Power
A good overview of the power charging process.

Sound settings
Choose your streaming profile or change between WAP or Classic mode on the ambient listening.

Settings
Set up your MultiFunction button and other settings.

Statistics
See battery levels and how much your hearing protection has charged over time.

Google Play is a trademark of Google LLC.

Adapt and optimize the environmental listening to different scenarios.

With the new WAP (Work Audio Profiles) or Classic mode you decide what you need to hear, helping you concentrate your situational awareness on that which is important. Applicable for 3M™ PELTOR™ WS™ ALERT™ XPI and XPV.

WAP

Profiles:

			Sound pass through	Outside sound level
OFF		Suited for: Loud noise environments or when situational awareness is not required.		
A		Suited for: Environments with constant noise.		
B		Suited for: Varying noise levels.		
C		Suited for: Less noisy environments where you need to hear speech and some environmental sound.		

Classic

Volume Control:

			Sound pass through	Outside sound level
OFF		Suited for: Normal volume control allows for manual adjustment of the ambient microphones.
