Conference phones for every situation

Konftel 200 – the powerful conference phone for efficient meetings

The Konftel 200 is a powerful conference phone that works perfectly in both small and large meeting rooms. With superb sound quality and easy-to-use functions, it can also be extended with additional microphones.

KONFTEL FEATURES

- **OmniSound® – crystal clear sound**
- **Natural sound – in both directions (full Duplex)**
- **2 year guarantee**

KONFTEL 200 FEATURES

- **A sophisticated unit, simple to connect and use**
- **For analogue connection (PSTN)**
- **Large illuminated display**
- **Keypad**
- **User-friendly menu system**
- **Tape recorder output**
- **Expansion microphones and remote control as optional**

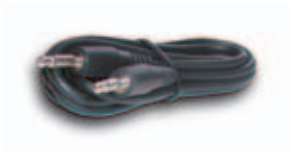
Now you can hold a meeting anytime – regardless of distance and pressing schedules. Konftel makes telephone conferencing the ideal alternative, providing an opportunity to bring people together and hold spontaneous meetings to reach instant decisions. Konftel conference phones are all equipped with the unique OmniSound®-feature – optimal sound for totally natural, crystal clear communication.

Intelligent communications

The Konftel 200 has been designed to offer greater choice and provide hassle free audio conferencing. It has a sophisticated menu system and can be expanded with additional microphones and remote control to meet all your conferencing requirements.

User-friendly functions

The Konftel 200 has a keypad with a mute button, an R-button for multi-party calls and a menu button. The menu system appears in the clear, illuminated graphic display. The phone book can store up to 50 contacts, along with the last called number, volume settings for the loudspeakers, date, time and call time. You can even select a language!



Ideal for larger meetings

Expansion microphones can be connected to the Konftel 200 to provide increased range and optimal sound conditions in larger meeting rooms. The range increases from 30 m^2 to 70 m^2. This provides superlative sound quality. The optional remote control adds further ease to meetings, allowing you to control all the Konftel 200 functions such as the speed dialling buttons for the most frequently used phone numbers.

Smart memory aid

An excellent way of saving time and increasing efficiency is to record the meeting – simply connect the Konftel 200 to the tape recorder with a special cable, then let the other parties know you'll be recording.

OmniSound® – crystal clear sound

Walk and talk freely around your room with consistently high quality sound. There is no irritating sound clipping, damping or echoes. OmniSound® produces natural sound in both directions (full Duplex) as well as 360° sound pick-up and reproduction. An ultra-sensitive microphone provides omni-directional sound pick-up and three built-in surround speakers provide crystal clear sound through the room.
