## Laser Technology for Quality Printing

The KX-FL511 lets you enjoy the professional look of laser printing. The laser copier function helps assure high quality reproduction in every document and drawing you want to copy. It can print documents in crisp 600 dpi resolution, at a fast rate of 12 pages\*<sup>4</sup> per minute.

## Convenient Laser Copier Function

The KX-FL511 performs a range of advanced laser copier functions in 600 dpi at 10 PPM: Enlarge (to 200% in 5% steps), Reduce (to 50% in 5% steps), Collate (sort) and Multiple Copy (up to 99 copies from one original).

## Dual Access Operation

This intelligent function quickens the pace by letting you run two operations at the same time. For instance, while the KX-FL511 is busy sending or receiving a memory-based fax, you can store additional documents to send later.

## Advanced Features

### 170-Page Document Memory\*<sup>1,2</sup>

The KX-FL511 can store up to 120 pages in its built-in memory. Ideal for broadcasting multi-page documents to multiple locations. This feature also enables out-of-paper reception for up to 170 pages.

### Quick Scan

Spend less time waiting for your documents to scan! Models with this feature rapidly scan a document into memory and then send the document from memory to the recipient.

**14.4 kbps**

### High Speed Fax Transmission (14.4 kbps)

This system is designed for fast, efficient fax transmission at speeds up to 14.4 kbps. This minimizes costs when you're sending a long distance fax.

### Caller ID Ready\*<sup>5</sup>

The 2-line LCD readout can display the caller's name and phone number. So, you can see at a glance who's calling before you answer the phone.
