Introduction

This guide is designed to assist extension users on a Siemens Hicom 300 Communication System to use all authorised features.

Your extension may not be authorised * to use all features. The Siemens representative can confirm features that are available to you.

* - authorised features are those features that your company has designated for your use and may vary from extension to extension.

Your extension may also be subject to trunk barring thus restricting where you may dial.

Range of optiset E Instruments

A variety of optiset E screen based instruments are available for use on the Hicom 300:

**optiset E standard** - Loudspeaking
No Key Modules No adapter plug-in positions

**optiset E advance** - Open Listening
Key Modules Two adapter plug-in positions

**optiset E advance plus** - Loudspeaking
Key Modules Two adapter plug-in positions

**optiset E memory** - Loudspeaking
Key Modules Two adapter plug-in positions

A Key Module is an add-on terminal with 16 programmable keys. The 16th key is a shift key which allows the 2nd level of numbers to be programmed. 4 Key Modules can be added to an Advanced, Advanced Plus or Memory telephone.

The optiset E telephones are Digital Feature instruments that have 12 programmable keys.
Introduction - Cont’d

The telephones are easily recognised by three dialogue keys namely:

✔ Yes Key
↕ Forward Scroll Key
⬇ Backward Scroll Key

The Siemens optiset E Digital Feature telephones operate via a Menu-controlled User Guidance Display System.

The display will automatically offer you a choice of the available options most suited to the task you are about to carry out.

Glossary

LED - Light Emitting Diode
Toggle - Alternating between calls
DDS - Direct Destination Select (External number)
DSS - Direct Station Select (Extension number with busy and ringing indication)
Dial Executive / Dial Secretary

The Dial Exec / Dial Sec keys have multiple functions. These keys provide direct access to the executive or secretary without using the Transfer option. The LED indicates when the executive or secretary is busy on a call.

Transfer a Call to the Executive or Secretary.

- press Dial Executive / Dial Secretary key
- announce call
- replace handset

Dial Executive or Secretary

- press Dial Executive / Dial Secretary key
Answering Calls for Executive/s

When the secretary is **FREE**, calls for the executive/s will ring on the secretary’s extension.

**Answer Call for Executive/s when FREE**

- lift handset or press **Speaker** key

**Transfer the call**

- press **Dial Executive** key
- announce the call
- replace handset or press **Speaker** key

When the secretary is **BUSY**, calls for her executive/s will flash on **Pickup Executive** key/s and a ping ring will warn her of holding call/s.

**Answer Call for Executive when BUSY**

- ask your current caller to hold on
- press flashing **Pickup Executive** key

You are now connected to your executive’s call and your original call is on hold.

**Transfer the Second Call**

- press **Dial Executive** key
- announce the call
- scroll to **TRANSFER** option
- press ✔ key to confirm **TRANSFER** option

Secretary is reconnected to first caller.
Ring Transfer

Calls for the executive can be forced from the secretary to the executive for answering. This feature can be activated from either extension.

**Activate Ring Transfer**

- press **Ring Transfer** key
- **Ring Transfer** LED is on

CALL TRANSFER TO EXEC
ACTIVATED

Incoming calls for the executive which normally ring on the secretary’s extension will now be diverted to the executive’s extension.

**Cancel Ring Transfer**

- press **Ring Transfer** key
- **Ring Transfer** LED goes off

CALL TRANSFER TO EXEC
DEACTIVATED
**Representative Secretary**

When a secretary is temporarily absent another digital telephone may be nominated to receive the calls for the executive/s. Calls for the secretary will not be forwarded.

**Programme Representative Secretary**

- press **Service Menu** key
- press **Representative Secretary** key
- dial nominated person’s extension number
- press ✔ key to confirm **SAVE?** option
- **Representative Secretary** LED is on

**Deactivate Representative Secretary**

- press **Representative Secretary** key
- **Representative Secretary** LED goes off

**Reactivate Representative Secretary**

- press **Representative Secretary** key
- **Representative Secretary** LED is on

When the executive presses the **Dial Secretary** key, the call is routed to the Representative Secretary.

**Change Representative Secretary destination**

- press **Service Menu** key
- press **Representative Secretary** key
- press ✔ key to confirm **NEW ENTRY?** option
- dial nominated person’s extension number
- press ✔ key to confirm **SAVE?** option
- **Representative Secretary** LED is on
Voice Calling

This feature allows the executive or secretary to operate the Siemens optiset E as an intercom. The executive and secretary has the option to disable this feature by activating the Voice Call Protect feature.

Programme Voice Calling on a vacant key

- press Service Menu key
- scroll to KEY FUNCTIONS option
- press ✔ key to confirm KEY FUNCTIONS option
- press desired key

NOTHING STORED
CHANGE?

- press ✔ key to confirm CHANGE option
- scroll to VOICE CALLING option
- press ✔ key to confirm VOICE CALLING option
- press ✔ key to confirm SAVE? option

KEY FEATURE
STORED

Make an Intercom Call

- press Dial Executive / Dial Secretary key
- press Voice Calling key

The secretary’s or executive’s loudspeaker is activated

Activate Voice Call Protect

- press Service Menu key
- scroll to SWITCHES option
- press ✔ key to confirm SWITCHES option
- scroll to VOICE CALL PROTECT option
- press ✔ key to confirm ACTIVATE VOICE CALL PROTECT option
Voice Calling - Cont’d

If Voice Call Protect is activated on the extension to which you wish to make a Voice Call, the Voice Call key will not activate the loudspeaker

PROTECTED
Internal and External Dialling

Handset Operation
- lift handset, listen for internal dial tone
- dial the required extension number or external number preceded by line access code (code is normally 0)

Handsfree Operation
- do not lift handset
- dial the required extension number or external number preceded by line access code (code is normally 0)

⚠️ Your telephone may have restricted dialling facilities, e.g. trunk calls may not be permitted.

Dialling the Switchboard

Handset Operation
- lift handset, listen for internal dial tone
- dial code for switchboard (code is normally 9)

Handsfree Operation
- do not lift handset
- dial code for switchboard (code is normally 9)
**Call Transfer**

You may transfer an internal or external call from your extension to any other extension or to the switchboard.

**Transfer to a Free Extension (Announcing the Call)**
- press ✔✔✔✔✔ key to confirm Consultation option
- dial required extension
- announce the call and replace handset

**Transfer to a Free Extension (Call not Announced)**
- press ✔✔✔✔✔ key to confirm Consultation option
- dial required extension
- replace handset when ring tone is heard
- the call has now been transferred

**Transfer to a Busy Extension**
- press ✔✔✔✔✔ key to confirm Consultation option
- dial required extension
- replace handset when busy tone is heard
- the call has now been transferred to the busy extension.

If the busy extension terminates the call within a predetermined time, the transferred call will ring the extension.

**Transfer Using the Dial Keys**
- press the required Dial (DSS) key
- announce the call when the extension answers
- replace handset

**Return to Caller**
If no reply or busy tone is received, you may return to the caller without attempting to transfer the call.
- scroll to RETURN TO HELD CALL? option
- press ✔ key to confirm RETURN TO HELD CALL? option
- you are reconnected to the caller
Call Transfer - Cont’d

If the extension remains busy or unanswered the call will automatically be transferred back to your extension.

SOURCE OF CALL
WAITING

Enquiry Call

This feature allows you to hold an existing call, dial another extension or an external number, conduct a conversation without the original caller overhearing, and then return to the original caller.

Activate Enquiry Call

- press ✔ key to confirm CONSULTATION option
- dial required extension number or dial 0 and required external number
- conduct conversation
- press ✔ key to confirm RELEASE AND RETURN option to return to original call

Activate Enquiry Call Using Dial Keys

- press required Dial key
- conduct conversation
- press ✔ key to confirm RELEASE AND RETURN option to return to holding call

You may use the TOGGLE option to switch between the original and third party calls. In each case the other party is automatically placed on hold.
Toggle Between Calls

You have a call on the line and wish to make a second call and want to toggle between both calls.

Activate Toggle

- press ✔✔✔✔✔ key to confirm CONSULTATION option
- dial the required extension or external number

or

- press Dial/DSS key

Once you have the second call on the line

- scroll to TOGGLE option
- press ✔✔✔✔✔ key to confirm TOGGLE option
- keep on pressing ✔✔✔✔✔ key to confirm TOGGLE option each time you wish to speak to the holding caller

or

You have a call on the line and wish to answer a second call and want to toggle between both calls.

- press Call Pickup key

or

- press Pickup Executive key

You may use the TOGGLE option to switch between the original and third party calls. In each case the other party is automatically placed on hold.

Disconnect either Party

- toggle to the party you wish to disconnect
- scroll to RELEASE AND RETURN option
- press ✔✔✔✔✔ key to confirm RELEASE AND RETURN option
- you will now be connected to the remaining caller

⚠️ The waiting party cannot hear your conversation.
**8 Way Conference**

This feature allows you to bring up to seven parties into an existing conversation on your extension. The seven parties could be external, internal or a mix of both.

**Activate Conference**

- you are engaged on a call
- press ✔ key to confirm **CONSULTATION** option
- dial required extension or 0 and external number
- scroll to **CONFERENCE?** option
- press ✔ key to confirm **CONFERENCE?** option
- conference tone is heard and all three parties are connected

```
CONF 1-2-3
```

**Add more parties to the Conference**

- press ✔ key to confirm **CONSULTATION** option
- dial required extension or 0 and external number
- scroll to **ADD TO CONFERENCE?** option
- press ✔ key to confirm **ADD TO CONFERENCE?** option
- conference tone is heard and all four parties are connected

```
CONF 1-2-3-4
```

Repeat the procedure to add more parties to the conference.

**Disconnect one of the Parties**

- press 2 / 3 / 4 / 5 / 6 / 7 / 8 to select the party you wish to disconnect
- scroll to **RELEASE PARTNER?** option
- press ✔ key to confirm **RELEASE PARTNER?** option
- the party is now disconnected from the conference
Transfer the Conference to Another Extension

- press ✔ key to confirm **CONSULTATION** option
- dial required extension
- scroll to **TRANSFER CONFERENCE** option
- press ✔ key to confirm **TRANSFER CONFERENCE** option
- you have now transferred the conference to the extension

Consult with an Extension or External Party when you are Busy with a Conference

- press ✔ key to confirm **CONSULTATION** option
- dial required extension or 0 and external number
- consult with the party
- press ✔ key to confirm **RETURN TO CONFERENCE** option
- you are now reconnected to the conference
Call Pickup

The Call Pickup feature allows you to answer any ringing extension in your pickup group from your telephone.

*Activate Call Pickup*

An extension within your pickup group is ringing

- **Call Pickup** LED flashes
- a ping ring will also alert you to an incoming call

```
SOURCE OF CALL
DESTINATION OF CALL
```

- lift handset, listen for internal dial tone
- press **Call Pickup** key
- you have now answered the call

or

- **Call Pickup** LED flashes
- a ping ring will also alert you to an incoming call

```
SOURCE OF CALL
DESTINATION OF CALL
```

- press **Call Pickup** key
- you have now answered the call for handsfree operation
Second Call Camp-on

This feature allows a second call to camp on your extension when you are busy on a call. The caller will receive ringing tone instead of busy tone.

Activate Second Call Camp-on

- press Service Menu Key
- scroll to SWITCHES option
- press ✔ key to confirm SWITCHES option
- press ✔ key to confirm CAMP-ON? option
- press ✔ key to confirm ACTIVATE CAMP-ON? option

SECOND CALL
ACTIVATED

When you are busy on a call and a second call arrives it will be signalled by the flashing of your Call Pickup LED and on all other digital instruments in your Pickup Group. A ping ring will also alert you to the next call.

If you do not use the Call Pickup feature to answer the second call then it will be routed to your Fixed Call Forward destination.

Deactivate Second Call Camp-on

- press Service Menu Key
- scroll to SWITC HES option
- press ✔ key to confirm SWITCHES option
- press ✔ key to confirm CAMP-ON? option
- press ✔ key to confirm DEACTIVATE CAMP-ON? option

SECOND CALL
DEACTIVATED
Transfer a Second Caller

Answer Second Call

If you are busy on a call when the Call Pickup LED flashes and you wish to answer the waiting call.

- ask existing caller to hold
- press Call Pickup key
- first call is placed on hold
- second call is now on the line

Transfer Second Call

- press ✔ key to confirm CONSULTATION option
- dial required extension
- scroll to TRANSFER option
- press ✔ key to confirm TRANSFER option
- first call is now on the line

Return to Call

If you receive no reply or busy tone, you can return to the second call.

Return to Second Call

- scroll to RELEASE AND RETURN option
- press ✔ key to confirm RELEASE AND RETURN option
- second call is now on the line

You can either Toggle between the two remaining calls or disconnect the second caller and return to the first call.

Disconnect the Second Call

- scroll to RELEASE AND RETURN option
- press ✔ key to confirm RELEASE AND RETURN option
- first call is now on the line
Calls may be parked on your optiset E for retrieval from your telephone or any other digital telephone in your Call Pickup group which is equipped with a Park key.

⚠️ Only ONE call per pickup group may be parked at a time.

**Park a Call**
- press Park key
- Park LED flashes
- replace handset or press Speaker key
- Park LED remains flashing

**Retrieve a Parked Call**
- Park LED is flashing
- lift handset, listen for internal dial tone
- press Park key
- Park LED is off
- call is now on the line

or

- press Park key
- Park LED is off
- call is now on line for handsfree operation
Call Back

Call Back requests can be left on extensions which have been rung and not answered or are busy.

**Activate Call Back Busy**

- called extension is busy
- press ✔ key to confirm CALL BACK? option

\[
\text{WILL CALL BACK}
\]

- replace handset or press Speaker key

The system will automatically call you back when both your extension and the called extension are free.

\[
\text{NAME AND NUMBER}
\text{CANCEL CALL BACK?}
\]

- lift handset or press Speaker key
- ring tone is heard as the required extension is rung

**Activate Call Back No Answer**

- called extension does not answer
- press ✔ key to confirm CALL BACK? option

\[
\text{WILL CALL BACK}
\]

- replace handset or press Speaker key

When the called party returns to the office and has used the telephone the system will ring your extension.

\[
\text{NAME AND NUMBER}
\text{CANCEL CALL BACK?}
\]

- lift handset or press Speaker key
- ring tone is heard as required extension is rung
Call Back - Cont’d

If the called extension is a screen based digital telephone with a Mailbox key a message will be left in the user’s mailbox to call your extension.

Should you fail to answer a Call Back that you have activated, the system will automatically cancel the feature after ringing your extension for a predetermined time.

Cancel Call Back

- press ▶ key and scroll to DISPLAY CALL BACK option
- press ✔ key to confirm DISPLAY CALL BACK option

EXTENSION AND NAME
DATE AND TIME

- scroll to DELETE? option
- press ✔ key to confirm DELETE? option

Call Back Message Request

In your absence a caller has left a Call Back request on your extension.

- Mailbox LED is on
- press Mailbox key

NAME CALL N
DATE AND TIME

- press Forward Scroll key and scroll to OUTPUT? option
- press ✔ key to confirm OUTPUT? option
- caller appearing on display will be called
External Line Reservation

Should you dial 0 for a line and receive busy tone, i.e. all lines are busy, you may reserve the first line to become free for your use.

Activate External Line Reservation

You have dialled 0 for an external line and receive busy tone

- press ✔ key to confirm CALL BACK option

- replace handset or press Speaker key

When an external line becomes free, your extension will ring.

- lift handset or press Speaker key
- internal dial tone is heard
- dial 0 for the line and required external number
**Fixed Call Forwarding**

Your line can be forwarded to a fixed destination for answering. This can be to either a Digital, analogue extension or external number.

**Programme Fixed Call Forwarding**

- press **Service Menu** key
- press **Call Forward** key twice

- Press ✔✔✔✔✔ key to confirm **NEW ENTRY?** option
- Dial required extension number or 0 and external number
- Press ✔✔✔✔✔ key to confirm **SAVE?** option
- **Call Forward** LED is on

The Fixed Call Forward destination has now been permanently programmed. Calls will now go to the Fixed Call Forward destination immediately.

**Deactivate Fixed Call Forwarding**

- Press **Call Forward** key
- **Call Forward** LED is off

When the Fixed Call Forward destination has been programmed but deactivated, it will serve as Call Forward No Answer i.e. if your extension rings for longer than a predetermined time it will automatically divert to the Fixed destination.
Fixed Call Forwarding - Cont’d

Reactivate Fixed Call Forwarding

- press Call Forward key
- Call Forward LED is on

Calls will now go to the Fixed Call Forward destination immediately.

Change Fixed Call Forwarding Destination

- press Service Menu key
- press Call Forward key TWICE

- press ✔ key to confirm NEW ENTRY? option
- dial extension number
- press ✔ key to confirm SAVE? option
- Call Forward LED is on
Variable Call Forwarding

This is a temporary Call Forwarding feature which allows you to divert all your calls to a destination of your choice and will override your Fixed Call Forwarding destination.

Programme Variable Call Forwarding

- press Service Menu key
- press Call Forward ONCE only
- dial extension number or 0 and external number
- press ✔ key to confirm SAVE option
- Call Forward LED is on

Calls will now ring as normal on your extension.
Your Fixed Call Forward destination will be restored.
Electronic Telephone Lock

This feature allows you to lock your extension by dialling your PIN, which prevents unauthorised use of your extension. The PIN assigned to your extension will be provided by your System Administrator.

Lock your Extension

- dial *21 and your PIN

CARRIED OUT

Your extension will now be restricted to local or internal calls only. Special dial tone will be heard to remind you that the feature is activated.

Unlock your Extension

- dial #21 and your PIN

CARRIED OUT

⚠️ You will still be able to receive calls when your extension is locked.
**Mobile Class of Service**

This feature allows you to activate your own Class of Service (barring level) on any extension.

**Activate Mobile Class of Service**

- dial `* 25` and your **PIN**

```
ENTER ID EXTENSION
```

Call will now register against your name on the Telephone Management System

**Cancel Mobile Class of Service**

- dial `# 25`

```
IDENTIFICATION DELETED
```

⚠️ Should you forget to cancel your PIN at the remote extension, contact the extension and ask them to dial `# 25`. The PIN will however be automatically cancelled if the extension is not used for a predetermined time.
Follow Me

This feature allows you to activate Call Forwarding at a remote extension to enable calls to follow you from extension to extension.

**Activate Follow Me**

When you arrive at the remote extension where you wish to receive calls made to your extension.

- lift handset, listen for internal dial tone
- dial * 25 and your PIN
- dial * 10
- replace handset

Incoming calls to your extension will now divert to this extension. When you activate this feature it transfers various facilities to this extension e.g. Barring Restrictions, Stored Number Redial etc.

**Cancel Follow Me**

**At the Remote Extension**

- lift handset, listen for internal dial tone
- **first** dial # 10 (this cancels your Call Forwarding)
- dial # 25 (this cancels your PIN)
- listen for confirmation tone
- replace handset

⚠️ Should you forget to cancel your PIN at the remote extension, contact the extension and ask them to dial # 25. The PIN will however be automatically cancelled if the extension is not used for a predetermined time.

The Call Forward can be cancelled from your own extension.
Speed Dialling via Programme Key

Spare keys on the optiset E telephone and on the add-on Key Module are available for programming of direct dialling numbers, internal or external.

There are two types of Direct Dialling keys available:

1. **Direct Destination Select (DDS) keys**
   These keys are programmable by yourself for any external numbers, subject to your trunk barring limit.

2. **Direct Station Select (DSS) keys**
   These keys are available for programming of internal numbers. Once an extension number has been programmed the LED will indicate the status of the extension i.e. busy or free. These keys can be used to pick up calls that flash on them if your phone is free.

**Programme Speed Dial keys**

- press **Service Menu** key
- scroll to **KEY FUNCTIONS** option
- press ✔ key to confirm **KEY FUNCTIONS** option
- press required key to be programmed
- press ✔ key to confirm **CHANGE** option
- scroll to **DIRECT STATION SELECT** or **DIRECT DESTINATION SELECT** option
- press ✔ key to confirm required option
- press ✔ key to confirm **SAVE?** option

**Programme Speed Dial Destinations**

- press **Service Menu** key
- press programmed **DDS** or **DSS** key
- dial required external number or extension number
- press ✔ key to confirm **SAVE?** option

**Dial Speed Dial Numbers**

- press required **DSS** or **DDS** key

**NUMBER DIALLED**
Individual Abbreviated Dialling

In addition to the System Abbreviated Dialling lists you may programme 10 additional numbers, under the dial keypad digits 0 - 9, for your exclusive use. These numbers will however be subject to any trunk barring limits which apply to your extension.

Programme Numbers

- press Service Menu key
- press ✔ key to confirm DESTINATIONS option
- scroll to SPEED DIALLING option
- press ✔ key to confirm SPEED DIALLING option
- dial access code 0 - 9
- press ✔ key to confirm NEW ENTRY option
- dial 0 and external number
- press ✔ key to confirm SAVE option

Dial Numbers

- press Service Menu key
- scroll to USE SPEED DIALLING option
- press ✔ key to confirm USE SPEED DIALLING option
- dial access code 0 - 9

or

- press Quick Dial key
- dial access code 0 - 9
- wait whilst system dials the number

Programme a Quick Dial key

First programme a spare key as a Direct Destination Select (DDS) key (see Programme Speed Dial keys section on page 39)

- press Service Menu key
- press programmed DDS key
- press ✔ key to confirm NEW NUMBER option
- dial # 81
- press ✔ key to confirm SAVE option
System Abbreviated Dialling

The system allows for the storage of 16000 external telephone numbers divided into 16 groups, each containing 1000 numbers. You can have access to only two groups i.e. 2000 numbers. By utilising the System Abbreviated Dialling, you will be permitted to dial specific numbers that would be outside your normal trunk barring limits.

Use the System Abbreviated Dialling

- select the relevant access code from the Abbreviated Dialling Directory
- dial the relevant code XXXXX

- wait whilst the system dials the number

The system will dial the required external number, the time taken will vary according to the type of main exchange to which your Hicom 300 is connected.
This feature allows you to store any number for later re-dialling. The number may be stored for as long as required.

**Store a Number**

You have dialled a number and have not been answered or the number is busy, do not disconnect.

- press **Redial** key

  ![STORED]

- replace handset or press **Speaker** key

**Redial the Number**

- press **Redial** key

  ![DIALLED NUMBER]

- the number is now automatically dialled by the system

The number will remain stored until another number is stored, thus erasing the previous number.
Timed Reminder

Timed reminders or alarms can be programmed to remind you of meetings or appointments. This feature has to be programmed on a key.

**Programme Timed Reminder on a Key**

- press **Service Menu** key
- scroll to **KEY FUNCTIONS** option
- press ✔ key to confirm **KEY FUNCTIONS** option
- press required key
- scroll to **REMARK** option
- press ✔ key to confirm **REMARK** option
- press ✔ key to confirm **SAVE?** option

**Set Timed Reminder (e.g. 3:30 PM)**

- press **Service Menu** key
- press **Reminder** key
- enter 1530
- press ✔ key to confirm **SAVE?** option
- **Remind** LED is on

Alarm will sound for 40 seconds at 15:30, or stop if **Remind** key is pressed. If **Remind** key is not pressed, the alarm will be repeated after 5 minutes and then automatically cancelled.

**Display Timed Reminders**

- **Remind** LED is on
- press **Remind** key to scroll for alarms

<table>
<thead>
<tr>
<th>REMINDER</th>
</tr>
</thead>
<tbody>
<tr>
<td>15:30</td>
</tr>
</tbody>
</table>
**Timed Reminder - Cont’d**

**Cancel Timed Reminders**

- press **Service Menu** key
- press **Remind** key until required alarm is displayed
- scroll to **DELETE?** option
- press ✔✔✔✔✔ key to confirm **DELETE?** option

**DELETED**

- **Remind** LED goes off if this is the last remaining alarm

---

**Night Service**

**When the Night Bell rings**

- dial ∗ 88
- you are now connected to the caller

Check with System Administrator if any other type of Night Service is operational.
Key Settings

The **Plus (+) and Minus (–)** keys allow for the individual settings of the levels of speech, ringing, ring tones and warning tone volume.

**Change Speech Volume**
- whilst busy on a call
- press + or – keys to adjust Speech volume
- press + and – keys simultaneously to store setting

**Change Ringer Volume, Ringer Pitch or Warning Tone Volume**

**To Change Ringer Volume**
- do not lift handset
- press + and – keys simultaneously
- press ✔ key to confirm RINGER VOLUME option
- press + or – keys to adjust Ringer Volume
- press + and – keys simultaneously to store setting

**To Change Ringer Pitch**
- do not lift handset
- press + and – keys simultaneously
- scroll to RINGER PITCH option
- press ✔ key to confirm RINGER PITCH option
- press + or – keys to adjust Ringer Pitch
- press + and – keys simultaneously to store setting

**To Change Warning Tone Volume**
- do not lift handset
- press + and – keys simultaneously
- scroll to WARNING TONE option
- press ✔ key to confirm WARNING TONE option
- press + or – keys to adjust Warning Tone Volume
- press + and – keys simultaneously to store setting
Key Settings - Cont’d

To Change Hands-free Mode

- do not lift handset
- press + and – keys simultaneously
- scroll to HANDS-FREE MODE option
- press ✔ key to confirm Hands-free Mode option

SOUND PROOFED

- press + key

NORMAL ROOM

- press + key

REVERBERATING

- press ✔ key to confirm one of the above options
- press + and – keys simultaneously to store setting
